Education

2024 - 2028 PhD Candidate

Department of Informatics, King's College London

- **Supervision:** Dr Gerard Canal and Dr Albert Meroño-Peñuela.
- **Research:** integration of external knowledge into task planning in robotics, using neurosymbolic approaches.
- **Training:** safety and reliability of AI systems, trust in AI systems.

2019 - 2022 Computer Science BSc

King's College London, First Class Honours

- **Final Grade:** average of 83%
- **Bachelor thesis:** "Holistic Evaluation of Bias, Harm, and Stereotypes in the Verbalisation of Knowledge Graphs", supervised by Dr Albert Meroño-Peñuela; final grade 86%.
- **Selected modules:** Elementary Logic with Applications (Level 4, 96%), Introduction to Robotics (Level 5, 95%), Software Engineering Group Project (Level 5, 90% as team leader), Cryptography (Level 6, 88%)

Work Experience

2023 - Present Teaching Assistant

King's College London

- **Introduction to Robotics:** leading tutorials and labs; coursework marking.
- **Computer Systems:** leading practical labs with Arduinos and Assembly.
- **Network Data Analysis:** leading tutorials on analysis of graphs and networks; coursework marking.

2025 Senior Technician in Education

King's College London

- **Technical contribution:** repair and resolve issues with TIAGo, Turtlebot3, and NAO robots; maintenance of software and OS.
- **Other:** liaise with professionals regarding required work (3D printing, soldering)

2022 - 2024 Autonomous Vehicles Verifiability Intern

UKRI TAS Hub, King's College London, led by Professor Mohammad Mousavi

- **AVs:** integration of CARLA simulator with an autonomous driving AI, and development of autonomous driving functions for model vehicles, using ROS1
- **LolaPrompts:** extension of an Android app for monitoring RDE tests, to improve usability by providing the driver with analysis-based instructions.
- **Technical support:** for BSc Final Project students - installation, setup and launching of software.

Academic Engagement

- 2024 - Present **Member and Team Manager**
LASR Team for Robocup@Home
- 2026 - Present **Social Secretary**
Centre for Doctoral Training in Safe and Trusted AI, King's College London
- 2022 - Present **Presenter**
AI and Robotics demos at public events

Skills

- **Programming Languages:** Python, Java, Scala, C++, Typescript, Kotlin
- **Operating Systems:** Linux, Windows, Android
- **Libraries:** PyTorch, Transformers (HF), NLTK, RDFLib, networkx, UnifiedPlanning, Tarski, Pandas, Matplotlib
- **Robotics:** ROS (1&2), Jetson, Raspberry Pi, custom car model, Turtlebot3, TIAGo, NAO
- **Tools:** Git, Conda, Docker, Apptainer
- **Spoken Languages:** Fluent - English, Hebrew; Intermediate - French; Basic - Polish.

Publications

- **Armony, M.**, Meroño-Peñuela, A. and Canal, G., 2026, June. When Can Planning Benefit from Common-Sense Knowledge?. In ICAPS Workshop on Knowledge Engineering for Planning and Scheduling (KEPS).
- Navaratnarajah, M., **Armony, M.**, Biewer, S., Hermanns, H. and Mousavi, M.R., 2025, June. LolaPrompts: Assisting the General Public in Performing Real-Driving Emission Tests. In International Conference on Formal Techniques for Distributed Objects, Components, and Systems (pp. 211-220). Cham: Springer Nature Switzerland.

Presentations

- **Poster & Spotlight Presentation:** Won the Best Presentation Award; KCL Informatics PhD Research Showcase
- **Paper Presentation:** Knowledge Engineering for Planning and Scheduling (KEPS) Workshop at ICAPS 2026
- **Poster & Spotlight Presentation:** ICAPS Doctoral Consortium 2026

Peer Reviews

- **Journal reviewer:** IEEE RAL
- **Conference delegate reviewer:** TAROS 2026, ICAPS 2026, IROS 2026, ICRA 2026
